Unleash Your Inner Millionaire II

Using the *Formula for Miracles®* Technology to Turbo-Charge Your Prosperity by Reprogramming Your Subconscious Mind

WARNING: this is NOT just another feel-good Law of Attraction lecture that gets you psyched up and tells you to think positively and say your wealth affirmations. If you're like me, you've been down that road before and been disappointed with the results!

This program is the sequel to the best-selling *Unleash Your Inner Millionaire* program and will powerfully propel your prosperity to the next level! It is recommended, but not required, that you go through the original *Unleash Your Inner Millionaire* program first. If you do not already have the original *Unleash Your Inner Millionaire*, there is a coupon included on the last page of this manual so you can get it at over an 80% discount.

The Law of Attraction has gotten a lot of press in the last several years, but unfortunately there are very few people – typically less than 1% - who can use the usual Law of Attraction techniques and get the results they want.

Unleash Your Inner Millionaire II is designed to change that so you can finally see some serious transformation!

The two most important reasons for failure with the Law of Attraction are:

- 1) Your subconscious mind is responsible for between 90-99% of what you experience in your life. However, most Law of Attraction, mind power, and energy healing programs work primarily or entirely with the conscious mind. Hence, it is nearly impossible to get good results from the typical set of positive affirmations, mantras, vision boards, and psychological inflation exercises (like dancing on the stage and high-fiving your friends and repeatedly saying things like “I am a millionaire” that you know are not true.)
- 2) While there is powerful truth underneath these Law of Attraction teachings, the vast majority of the material out there not only misses the importance of the subconscious mind, but is also nearly always misunderstood and misapplied by both teachers and students. As a result, the things you’ve learned may actually be making your financial situation worse!

This special audio program is unprecedented in its ability to get 100% of your mind, including both your conscious and subconscious, on board to manifest a life of financial freedom, prosperity, and success, and to give you a deep understanding of the powerful truths hiding within the typical Law of Attraction programs.

Unleash Your Inner Millionaire II works by engaging your left brain and your right brain, as well as both your conscious and subconscious mind. For the left brain and conscious mind, *Unleash Your Inner Millionaire II* contains sophisticated “graduate level” Law of Attraction lecture programs to show you the truth about your life and the world really works. And for the right brain and subconscious mind, *Unleash Your Inner Millionaire II* uses subconscious block clearing programs that use the revolutionary *Formula for Miracles* technology to instantly clear your subconscious mind of powerful blocks to wealth, prosperity, and success while you listen.

What’s In *Unleash Your Inner Millionaire II*?

Unleash Your Inner Millionaire II is divided into two sections: lecture and presentation material, and subconscious block clearing programs.

In the lecture and presentation section, you'll learn state of the art secrets, insights, and applications of spiritual principles that go far beyond what you've heard before. You'll learn what you've been doing wrong, why you haven't yet achieved the life of your dreams, and what it really takes to finally get your prosperity flowing!

The *Unleash Your Inner Millionaire II* lecture programs include:

Short Introduction (for those already familiar with energy healing, muscle testing, and subconscious reprogramming)

Long Introduction (for those who are new to energy healing, muscle testing, or subconscious reprogramming)

Part 1: Teachability - How to Maximize the Value you get from this (or any!) Program

Part 2: The Simple Truth Behind “The Great Shift”: How to Make Millions and Create a Better Life with Tools for Higher Dimensional Living

Part 3: The Seven Deadly Law of Attraction Mistakes

Part 4: Energy Healing/Law of Attraction Myth-Busting

Part 5: Applying the Law of Attraction to the Stock Market, Lotteries, and Gambling

Part 6: Embodiment (or, How to Triple Your Income by Shaking Your Hands)

Part 7: Creating Your Life Map

The second half of *Unleash Your Inner Millionaire II* consists of block clearing programs that will actually clear your limiting subconscious beliefs, just by listening to them! These block clearing programs use the patent-pending *Formula for Miracles* technology, which combines custom-designed sub-audible binaural beats that put you into a deep theta brainwave with special subconscious block clearing energy infused into the program via a special higher dimensional energy healing. This combination will actually reprogram your subconscious mind and permanently reset your “subconscious financial thermostat” to a higher level of wealth, success, and prosperity for the rest of your life!

The block clearing programs include:

Program 1: Vows, the Wealth Set Point

Program 2: Blocks to Being Wealthy, Financial Self-Sabotage

Program 3: Blocks to Money

Program 4: The Law of Attraction, Focus, Jobs, Women and Money

Program 5: Guided Manifestation

Please note that, in order to help you clear your blocks as quickly as possible, multiple topics are covered in the block clearing programs, so that you can get through all of them in just four days. The Guided Manifestation is designed to be used as many times as desired, and each time it will take you into a deep conscious theta brainwave and guide you through the process of manifesting a specific change into your life.

By the time you finish this program, you will have transformed both your conscious mind and your subconscious mind, and be poised to finally see some real results.

If you’ve used other Law of Attraction material, but still aren’t living the life of your dreams, it’s

about time for you to *Unleash Your Inner Millionaire!*

How to Use *Unleash Your Inner Millionaire II*

There are no special instructions for the lecture and presentation sections of the program - listen to them at your convenience! However, it is recommended that you listen to each lecture program at least three times, because they are densely packed with life changing material and it will be nearly impossible to retain all of it after just one listen.

On the other hand, in order to get the maximum benefit out of the block clearing sections, it is important to follow the guidelines below to clear your subconscious blocks:

Guideline #1: Listen to the block clearing sections with headphones

The block clearing programs are encoded with sub-audible binaural beats to gently guide your brain down to a deep theta brainwave. This opens your subconscious mind and allows the healing energies to clear your subconscious blocks to wealth, prosperity, and success.

It is important to listen to these programs with headphones to benefit from the binaural beats. Any sort of headphones will do.

You can plug headphones into your computer, or download the audio files onto your iPod or other portable music player, or burn the files onto a CD and listen to it on your stereo. Just be sure to be using headphones when you listen to the block clearing sections!

Guideline #2: Use Muscle Testing as you listen to the block clearing sections

In order to get the maximum benefit from the block clearing, it is important that you follow along and use muscle testing not only to identify which blocks you have, but also to identify when they have been released. While you will get some benefit from listening to the block clearing programs without using muscle testing, your results will be much better and come faster if you follow along and use muscle testing.

If you are new to muscle testing, there are instructions on how to do self muscle testing in the long introduction program. There is also an introduction to muscle testing on the *Formula for Miracles*[®] Web site at <http://www.FormulaForMiracles.net>, and there is an in-depth discussion of muscle testing in my book *Where Science Meets Spirit: The Formula for Miracles*.

If you'd like even more information on muscle testing, your best resource is the video *Secrets of Muscle Testing*, which includes a wealth of information on what muscle testing is, how it works, how to troubleshoot muscle testing problems, and step-by-step video tutorials on doing four different kinds of muscle testing.

The video *Secrets of Muscle Testing* and the book *Where Science Meets Spirit: The Formula for Miracles* are both free downloads in the *Formula for Miracles* VIP Club members, and are included in tele-seminar special offer bundles, so it is likely that you already have them; if not, they are also available at <http://www.FormulaForMiracles.net>.

Guideline #3: Do not attempt to drive, operate machinery, or do anything that is potentially dangerous or requires concentration.

The binaural beats coded into the block clearing programs will shift you to a deep theta brainwave, which is ideal for clearing subconscious blocks but not safe for driving, operating machinery, or doing anything else that requires your attention, focus, or concentration. If possible, please do not be doing anything other than muscle testing while listening to the block clearing programs!

Guideline #4: Do not try to go through more than one block clearing program per day

Using the block clearing programs will make powerful shifts within your subconscious mind, and it is important to allow your body enough time to integrate these changes. Hence, it is not recommended that you listen to more than one block clearing program per day.

Guideline #5: Do your best to listen to the block clearing sections in their entirety

If possible, try to get all the way through each block clearing section in one sitting. This is because the first few minutes of each block clearing section are encoded with a special “glide” to gently entrain your brain into a deep theta brainwave, so it may not work as well to start listening to a block clearing section in the middle. If you are interrupted while listening to a block clearing section, or simply don't have enough time to get through the whole section, make a note of where stopped, and next time start by listening to just the first five minutes of the block clearing program before you jump ahead to where you left off. This will allow the sub-audible binaural beats to gently glide your brain into a deep theta state before doing more block clearing.

In order to help you get through the block clearings as quickly as possible, multiple topics are covered in most of the block clearing sections.

You may listen to the *Unleash Your Inner Millionaire II* tracks in any order. However, the recommended sequence is:

Lists of All Subconscious Blocks

The following is a comprehensive list of all the limiting beliefs cleared by the block clearing sections in *Unleash Your Inner Millionaire II*.

This list is provided to make it easy for you to follow along and keep track of which blocks are cleared as you listen.

You will notice that most of the beliefs on the list are negative and limiting belief systems that hold back your wealth and prosperity. For example, “rich people are greedy” is a limiting belief system, so if you muscle test “rich people are greedy” and the result is YES, you’ll want to clear that block so that your muscle test says NO.

However, some of the beliefs tested are positive, and so you want a YES result to the muscle test. For example, “rich people are healthy” is a positive belief system that supports your prosperity, so if you muscle test it and the result is NO, you’ll want to clear that block so your muscle test is YES. To make it obvious, the beliefs that you want to change if they muscle test YES have the word NO appended to the end of the statement.

Don’t worry if you’re confused – it will be obvious when you get into it!
